College of Engineering and Technology

Project Work/Internship – Student Hand Book

Project Batch ID

Degree/ program	B.Tech	**Specialisation**	Computer Science and Engineering Specialisation with AI & ML
Academic Year	2025-2026 (Even)	**Semester**	8

Name of student	**Register Number**	**Department**	**Mobile Number**	**Email ID**
Akshita Sharma	RA2211026010268	CINTEL	9871618879	As0568@srmist/edu.in
Anshita Srivasta	RA2211026010278	CINTEL	8080242911	as1840@srmist.edu.in

Working Title of the Project:	**Rebound**
Project Site / Location	SRM IST, Kattankulathur, Chengalpattu District-603203
Name and address of the company/organisation (Applicable for projects with industry or industry support)	SRM IST, Kattankulathur, Chengalpattu District-603203

Supervision Team

	Supervisor	**Co-Supervisor**	**External Supervisor (If applicable)**
Name			
Designation			
Department			
Campus	Kattankulathur		
Telephone			
E-mail			

College of Engineering and Technology

Project Work/Internship – Student Hand Book

Course Code	21CSP401L/ 21CSP402L	Course Title	Project

Mission Statement

Problem (or) Product Description:

Athletes and coaches at the amateur and semi-professional levels often lack access to structured tools for documenting match performances, tracking progress, and showcasing their sporting journey. Existing sports technology platforms largely focus on professional or commercially popular leagues, leaving grassroots athletes with fragmented data, informal record-keeping, and limited visibility. This absence of centralized and verifiable performance records makes it difficult for athletes to evaluate improvement, maintain historical data, and present credible portfolios to clubs, sponsors, or recruiters.

Athlinix is a mobile-based sports performance and documentation platform designed to address these challenges. The application enables athletes and coaches to log detailed game statistics, manage teams, approve match data, and visualize performance trends through timelines and analytics. By combining verified game logs, performance dashboards, and social sharing features, Athlinix creates a structured digital environment that supports long-term athlete development and recognition. The platform aims to bring professional-level organization and analysis to non-professional sports ecosystems.

Assumptions and Constraints

Assumptions

- Users possess basic smartphone literacy and internet access.
- Athletes and coaches are willing to log or validate match data regularly.
- Basketball is the primary sport considered in the current phase.
- Users provide accurate and honest statistical inputs.

Constraints

- Limited development time within the academic semester.
- Dependency on third-party services such as Supabase for backend management.
- Performance analytics limited by available data volume in early usage stages.
- Scope restricted to core features due to academic project boundaries

Stakeholders

- Primary Stakeholders
  - Athletes (school, college, and independent players)
  - Coaches
- Secondary Stakeholders
  - Scouts and recruiters
  - Sports clubs and academies

- Parents and guardians of athletes
- Institutional Stakeholders
  - Academic supervisors
  - SRM Institute of Science and Technology

Division of work and contributors (Phase 1)

From Date	To Date	Activities / Components	Individual Contributor (Name / Reg. No.)	Joint Contributors
Jan 2026	Feb 2026	Requirement analysis & problem definition	Akshita Sharma / Reg. No.	—
Jan 2026	Feb 2026	User stories and sprint planning	Akshita Sharma / Reg. No.	—
Feb 2026	Mar 2026	UI/UX design (wireframes & flows)	Akshita Sharma / Reg. No.	—
Feb 2026	Mar 2026	Database schema design	Akshita Sharma / Reg. No.	—

Division of Work and Contributors – Phase 2

From Date	To Date	Activities / Components	Individual Contributor (Name / Reg. No.)	Joint Contributors
Mar 2026	Apr 2026	Feature development (registration, profiles, teams)	Akshita Sharma / Reg. No.	—
Apr 2026	May 2026	Game logging & approval workflows	Akshita Sharma / Reg. No.	—
Apr 2026	May 2026	Performance analytics & dashboards	Akshita Sharma / Reg. No.	—
May 2026	Jun 2026	Testing, bug fixing & optimization	Akshita Sharma / Reg. No.	—

Summary Record of Major Progress Meetings with Supervisors (Sprint 1)

Meeting Date & Supervisors Present	Progress Since Last Meeting	Agreed Programme of Work & Target Dates	Other Issues	Date of Next Meeting
Jan 2026 – Supervisor	Problem definition finalized, user stories identified	Complete UI wireframes and database schema	Clarification on feature scope	Feb 2026

Summary Record of Major Progress Meetings with Supervisors (Sprint 2)

Meeting Date & Supervisors Present	Progress Since Last Meeting	Agreed Programme of Work & Target Dates	Other Issues	Date of Next Meeting
Mar 2026 – Supervisor	Core features implemented, team & game modules completed	Implement analytics and dashboards	Performance optimization suggestions	Apr 2026

Summary Record of Major Progress Meetings with Supervisors (Sprint 3)

Meeting Date & Supervisors Present	Progress Since Last Meeting	Agreed Programme of Work & Target Dates	Other Issues	Date of Next Meeting
May 2026 – Supervisor	Feature integration and testing completed	Final testing and documentation	Deployment considerations	Jun 2026

Worksheet / Data collection / Observation etc

- User interviews with amateur basketball players
- Observation of existing sports tracking platforms
- Analysis of stat types relevant to basketball performance
- Feedback collected during internal testing cycles
- Performance data trends reviewed through sample game logs

Patent Publication Details

- **Title:** Digitizing Amateur Sports Performance Using Mobile-Based Analytics
- **Status:** Proposed
- **Target Publication:** To be identified (Sports Technology / Applied Computing journals)
- **Year:** 2026
